GLOBAL AND PLANETARY CHANGE

www.elsevier.com/locate/gloplacha

Contents Volume 29, 2001

Research Papers

Temporal and spatial patterns of Holocene dune activity on the Great Plains of North America: megadroughts and climate links
S.L. Forman, R. Oglesby and R.S. Webb 1

Influence of climate variability on the atmospheric transport of Icelandic tephra in the subpolar North Atlantic
C. Lacasse 31

Modeling orbital forcing of lake level change: Lake Gosiute (Eocene), North America
C. Morrill, E.E. Small and L.C. Sloan 57

Nutrient and oceanographic changes in the Eastern Equatorial Pacific from the last full Glacial to the Present
P. Loubere 77

Global and regional anthropogenic sulfur dioxide emissions
S.J. Smith, H. Pitcher and T.M.L. Wigley 99

The 100 kyr cycle of deglaciation during the last 450 kyr: a new interpretation of oceanic and ice core data
J. Servant 121

Probable reasons for enhanced cyclogenesis in the Bay of Bengal during July–August of ENSO years
O.P. Singh, T.M. Ali Khan and Md. Sazedur Rahman 135

SPECIAL ISSUE

Inference of Climate Change from Geothermal Data

Edited by: Hugo Beltrami and Robert N. Harris

Editorial 149

Ground surface temperature history at a single site in southern Portugal reconstructed from borehole temperatures
A. Correia and J. Šafanda 155

Evidence of climatic warming in the southern Urals region derived from borehole temperatures and meteorological data
I.V. Golovanova, R.N. Harris, G.V. Selezniova and P. Stulc 167

Climate change of the last 2000 years inferred from borehole temperatures: data from Finland
L. Bodri, V. Cermak and I.T. Kukkonen 189

Long wavelength ground surface temperature history from continuous temperature logs in the Transylvanian Basin
D.Z. Şerban, S.B. Nielsen and C. Demetrescu 201

80,000 years ground surface temperature history inferred from the temperature–depth log measured in the superdeep hole SG-4 (the Urals, Russia)
D.Yu. Demezhko and V.A. Shchapov 219

Composite surface temperature history from simultaneous inversion of borehole temperatures in western Canadian plains
J.A. Majorowicz and J. Safanda 231

Signature of the last ice age in the present subsurface temperatures in the Czech Republic and Slovenia
J. Šafanda and D. Rajver 241

Numerical modelling of permafrost in bedrock in northern Fennoscandia during the Holocene
I.T. Kukkonen and J. Šafanda 259

Non-conductive heat transfer associated with frozen soils
D.L. Kane, K.M. Hinkel, D.J. Goering, L.D. Hinzman and S.I. Outcalt 275

Patterns of soil temperature and moisture in the active layer and upper permafrost at Barrow, Alaska: 1993–1999
K.M. Hinkel, F. Paetzold, F.E. Nelson and J.G. Bockheim 293
A decade of air–ground temperature exchange from Fargo, North Dakota
W.L. Schmidt, W.D. Gosnold and J.W. Enz 311
On the relationship between ground temperature histories and meteorological records: a report on the Pomquet station
H. Beltrami. 327
